A death metal band with a full-scale sonic assault and a sound unique enough to call their own: Razorgrind.

Taking influences from thrash, grindcore, death metal, horror movies and a love for the power of the riff. Known for their baby mutilation and live abortions, their live shows push the envelope of what in your face means. Partner that alongside music that's catchy enough to be stuck in your head for weeks and you have a recipe for a one of a kind act. Satan has bestowed upon them a 5 star rating of blasphemy due to the mayhem that ensues when their unique brand of death metal is performed.
